TO OUR CUSTOMERS

The military and lend lease are demanding more of the processed vegetables than all of our commercial interest can furnish. Our Government is asking all who have gardens to grow their own. It is our purpose to be of service to our country and to you. Everyone who can, should grow food for home consumption.

We are offering the following plants grown from the best certified seed obtainable. All orders shipped parcel post will be carefully packed. We pay all transportation charges, but in so doing will charge 10c per dozen and 35c per hundred to cover actual cost of packing.

All plants offered are transplanted and hardened, with strong stems and a fine root system to assure maximum results.

ALLANNUAL PLANTS

Except where noted 25c per doz. \$1.25 per flat (84 plants) quantities of 5 or more flats \$1.00 each. Plants shipped via parcel post 40c per doz. prepaid. 100 or more plants shipped via Express transportation charges collect \$2.00 per 100. All of our plants are well grown, hardened in cold frames, and carefully packed. They should reach you in fine condition.

Perennial Flower Plants

Prices quoted are f.o.b. our nursery. No extra charges for packing. Express shipments 10 or more plants. Buyer pays express charges.

These are specimen plants that we are offering. They have been exceptionally well grown; all have been, twice transplanted, field grown with ample space. Plants have good roots and will bloom this coming season. These plants are not to be compared with common stock. For best results order early so that we can dig your plants as early as possible. Early planting gives best results.

New Annuals

AGERATUM—*Midget Blue*, uniformly dwarf, plants 2-3 in. tall covered with true Ageratum-blue flowers.

PEPPERS—*New Early Pimento*. Very sweet, and *California Wonder*, sweet and very large. Either variety. 20c doz; 100 for \$1.35.

TOMATOES—Best varieties for early and main crops.

Victor—New extra early. Large clusters of good size fruit, smooth, solid and good quality.

Bonny Best—Special strain, early, large and smooth.

John Baer—Medium early, scarlet-red and smooth very firm.

Italian Red Pear—Solid deep red and fine quality, subacid.

Marglobe—Main crop, large globe shaped and smooth. Unexcelled for canning and juice.

Rutgers—Considered by many as the best for main crop. Fine bright red for canning and juice.

Pink Globe—One of superior quality, smooth, medium to large. A rich pinkish red, globe shaped and a heavy cropper with very little acid. Fine for canning and juice. This sort is well adapted for staking.

World's Largest—We have raised this sort the last two years and much of the fruit weighed 2½ lbs. each. Solid meat contains few seeds. Finest variety to stake and prune. All tomato plants per doz. 20c; per flat of 8 doz. \$1.25. In individual wood plant bands each 7c; per doz. 75c; 50 for \$3.00; 100 for \$5.50; Plants grown in this manner produce fruit much earlier as roots are not disturbed.

LETTUCE—Transplanted plants will give you large heads 2 to 3 weeks sooner than seed. These varieties are best for all purpose.

Grand Rapids, *Iceberg*, *Imperial 44*—The best strain and a sure header is *Cosberg*. Crisp, solid heads, finest quality.

Hanson, a very dependable header. All varieties above, doz. 15c; flat of 8 doz. for \$1.00.

MUSKMELON—*Honey Rock*, also called *Sugar Rock*. Best melon for this climate. Medium size, well netted with salmon flesh and deliciously sweet. Very productive. Grown in wooden bands these are placed in the soil so roots are not disturbed. Ready about May 20th to 25th. 10c each; doz. 75c; 100 for \$6.00.
